REPUDIATION.

We are pleased to announce to our readers that repudiation continues to gain strength and friends. It is as certain to become a successful proposition with the masses of the United States, as repudiation was with the old revolutionary sires after their struggle for Independence with England. Repudiation is now the only Financial Salvation of the country. Repudiation is as essential to our free existence as water or light.

If the Tax paying voter of our common country, will not accept and vote for repudiation, let him prepare himself and children for the most abject and ignominious slavery. As he grows older and older, the tax payers must become poorer and poorer.

Why? Because the National Debt is increasing, not decreasing—growing larger, not smaller. And as the debt grows larger, the taxes grow with it. Then you become poorer. This money goes into the pockets of the Bondholders who pay no taxes.

The people are murmuring everywhere in the United States, at the exorbitant taxes they are forced to pay to the government—and the extravagance of the officers is beyond all consideration most wanted and outrageous. Congress paid Mr. Grant's bill for lighting the White House, the other day, and that item alone amounted to forty thousand dollars. The idea that Grant should want forty thousand dollars worth of light, is an item in the life of any President of the United States, which should be known to the people, from whom their hard earned dollars are forced from them by threats of imprisonment and confiscation.

In the Civil Appropriation Bill which has lately passed the House of Representatives we observe the following items:

For fuel for the President's house, \$ 5,000
For annual repairs and repainting the exterior of the President's house, 10,000
For flower-pots, mats and twine, 1,000
For lighting President's house, Capitol and public grounds, 40,000
For cellular fence on President's grounds, 10,000
For additional repairs to the green-house at President's house, 2,500

The impudence and insolence of the Federal Tax Gatherer, has made him together with the above extravagance, a stench in the nostrils of the people.

The people hide from them—they run from them, like they would from some hideous pestilence.

There is no other remedy for these Federal raids upon the people but repudiation.

Let every man who has a vote refuse to record it for any man for Congress who does not go for repudiation. This is a right which is held by every voter, and if properly exercised, and brought to bear upon the politician and office hunter immediately, will result in a repudiation of the debt, and a stoppage of exorbitant and unnecessary taxation.

The Democracy of Fairfield, Ohio, have recently held a meeting and adopted the following resolutions. They are good and have the correct jingle:

Resolved, That the war waged by the Abolition party against sovereign States was a partisan war, for political and partisan purposes, and was in violation of the Constitution and the Democratic theory of our Government.

Resolved, That the war debt was created

under false pretences, and in violation of the Constitution, therefore a fraud upon the people, and is now exacting as it has been, the very substance of the tolling millions to pay the annual interest of the same; hence, if continued must inevitably make abject slaves of the masses to the bondholders; therefore

Resolved, That we are in favor of disavowing the bonded debt, or, in other words, are in favor of repudiating it; and if paid, we are in favor of letting the Abolition party and its negro allies pay it.

We endorse them separately and bodily, and if the country was not filled with cowardly politicians, who are fearful as to the general result, as to the proposition being popular or unpopular, many more Democratic meetings would adopt similar resolutions.

Good for repudiation, and down with exorbitant taxation and a non-tax paying bond-holding aristocracy.

CUBAN INSURRECTION.

Last week the committee on Foreign Affairs offered joint resolutions, recognizing the Cuban Insurgents as equal in war with the Spaniards, for the consideration of the House.

Mr. Banks—Gen. Banks, favored the resolution, in a spirited speech of some length. He evidently felt what he said, when he asserted that it was a duty of the people of the United States to recognize Cuban's as belligerents for humanity's sake. The Spanish government had inaugurated a style of warfare which has even shocked and made radicals turn pale, and there is no doubt now, that if the "late lamented" was living and occupied the White House in place of the present ignominious, that he would put his "root down" in a manner that would make the old Hidalgoes of Bloody old Spain tremble.

The present "incumbrance" at the White House, and on the United States, is one of those "West Pointers," but he is spoken of by members of his own party in the Senate, as an ignoramus. He is opposed to giving the Cubans Belligerent Rights, and it is hinted slyly that the recent message which he sent the House opposing the Cubans, was gotten up in part by the Spanish Minister. Everybody is satisfied that Grant did not write it. He is too ignorant. He was educated at West Point.

The fact that a Cuban rebel General killed six hundred and fifty prisoners, was alluded to in the House, and in the message. The fact that the Spanish Government inaugurated that style of warfare against the Cubans is a truth that can not be denied. The fact that Cubans are carrying the warfare on to-day as successfully and vigorously, as they did when they began, is also true. The fact that old Spain, assisted by her mercenaries on the Island can not whip or subjugate the brave people of Cuba is also as apparent as Holy Writ.

But for some private reasons which is not made known, but which are covered up with a quantity of "bosh" manufactured to order, Grant won't agree to recognize the Cubans. It would be impossible to say what he would or would not do. We venture the assertion that if he had been properly approached and offered and presented with a small Farm, or some thing else, nearly equal to a Farm or house and lot, that the recognition would have been made without any difficulty. Grant, it must be remembered is an ignorant, and reasons offered to him unaccompanied with other proof in the shape of "material aid," would be equal to singing hymns to a dead horse. He is a regular scallawag President, and like others of the same stripe of his party he goes for money.

'Tis said already, that the policy of the United States Government is controlled by Foreigners—that radicalism is so degraded and unprincipled that Foreign Gold when used freely has as much or more influence in certain quarters at Washington, than the people themselves. The people, in the estimation of a radical representative, have no weight. Gold is mighty and does prevail.

The friends of the Cuban insurrection are making a strong effort at this time to advance the interests of the people. We hope they may succeed. They deserve it.

A Blue Tulip.

Holland is feverish with anxiety about the prediction that this year a blue tulip will be raised; and as a prize of several thousand francs is to be given to the producer, the excitement among the florists is great. It is estimated that there are already some six hundred different kinds of tulips in Holland; but it is the blue one that is so anxiously looked forward to as the crowning glory of the floral kingdom.

"ALL IN HIS EYE."

A few of the Republican members of Congress have been amusing themselves sending negro Cadets to West Point, one of whom reached his destination. They propose to have White "Pointers" and Black "Pointers." Were they to send a "yellow nigger," with freckles upon his face, they would then have spotted "Pointers."

It is believed by a large number of people in the South that Mr. Davis' Pointerism assisted much in the ultimate destruction, and loss of Southern Independence. He ran the thing in the ground. Of all the humbugs that ever damned a brave and sensible people, these so-called educated Military humbugs were the greatest—and the Southern people were more imposed upon by the stupid set, than the Jews were by the Egyptians, while they were in bondage.

As we have said above, the nigger reported at West Point, and his arrival there created quite an excitement.

West Point is situated on the Hudson River, between Albany and New York, and is the Military Government School.

All the Puritanical Yankee Aristocracy of the Republican Negroizing element have occupied the school with their children—and as the thing is entirely of the Free-Nigger persuasion, we can not understand why those colored objects of their prayers by day and night—their text for sermons—their themes for song, and the embodiment of all their political principles should be excluded from equal participation with the white "squabs" of the Radical Aristocracy in learning how to shoot the small arms and cannon manufactured in this country.

But such is the case. The Nigger has not been permitted to remain at that National School for all fools—for no school in the United States has turned out half as many half-made-up leather-heads, or heads fit for no service, as West Point; and the thing is sustained by every man who pays his taxes to the Federal government. It may well be termed a pauper concern.

The nigger sent there was called Smith. We have no doubt he is as good, if not better than any other of the radical party, white or black, called Smith. But the Aristocratic Radical Paupers who attend that school are mostly of the white persuasion, and would not permit the nigger to remain—because—

1st. He was not white;
2nd. He smelt bad;
3rd. The hollow of his foot made a hole in the ground;
4th. His hair was not hair, but wool;
5th. He could not see—he must have been an Albino.

The Fifth objection was declared legal by the Medical Board of examiners of this West Point Concern, and the nigger was furnished with a pass and transportation to his home—if he had one.

Here then, is more evidence to the colored man that the republican party—its leaders are hypocrites and liars, and do not mean to place the nigger upon an equality with themselves, but that he (the darky) can only hope to be permitted to vote, and vote for the radical candidates, or prepare to make radicals their inveterate enemies.

JOHN W. STEVENSON.

This man, the Governor of Kentucky, has made a reply to Col. Jones. Its a huge paper. We would publish the thing, but it is unworthy. The man says he has been a professor of religion for many years. His religion in our opinion is simply experimental. His experiment is an overwhelming failure. The gentleman wears his religion as a cloak, and as a specimen of "second-hand clothing," is the most thread-bare vestment we have ever known. He must have picked up the cast off garment of some departed saint, who finding it unfit for use, cast it away.

All that is said by Stevenson, leaves the impression on the mind of the reader, that he is not disturbed in the least, as to the good or ill opinion the people may have of him, and the manner in which he succeeded in reaching his position as a Senator from Kentucky. He laughs in his sleeve, and says, "I have a place in the Senate for six years—that is a sufficient solace to me for all that may be thought ill of me in Kentucky."

He goes to Washington, however, like a scallawag—with the contempt of the people resting upon him.

WILLIAMSTOWN, GRANT CO.

We copy the following article written by our old friend B. N. Carter, from the Covington Journal, of the 18th inst:

Williamstown is a place, if "the City of Maidens," and "the metropolis of Bourbon" are on the Kentucky Central. Hear that, Morey! hear that, Craddock! It is on the line of the yet-to-be-built Cincinnati and Chattanooga Railroad, that will leave Louisville a village on the Ohio, a little west of it! Hurrah for George R. McKeel! George did get a law passed in our favor, while some others were trying to leave us out in the cold! poor orphans! Williamstown is now "a right smart place." When the road is built it will be "smarter." Let us wait—wait a little longer, for in the good time coming, the cars will all be running, right through Williams town! In some future letter I intend to tell you about our men and means and measures and mad and moderation, &c., &c., &c.; and then you'll wonder to hear the thunder of indignant eloquence, addressed to men of common sense, who selfish and selfish, would see the village of Williamstown, Grant's capital, go down down, down! But I forbear, in mercy, to many, not wishing to hurt any. Yes, Williamstown's improving; her men of sense are moving; and all their movements are full of improvements.

B. N. CARTER.

[For the Cynthiana News.]

I AFFIRM, THAT EDUCATION HAS MORE INFLUENCE OVER MANKIND THAN MONEY; LET US SEE.

Education in its true sense is the instrument appointed by the Supreme Being to mould the moral, intellectual, and physical powers into system, strength and beauty; to establish as far as humanly possible mind and heart in their original vigor and purity. Were it not so, were there not means adapted to the great end of man's creation, we should have reason to infer that the human being when he comes into the world, would not be endowed with a fullness of all those faculties, the exercise of which, in the progress of life, are constantly necessary for his preservation. The inferior animal creation brings with it the instincts to answer the ends of its existence, as perfect at the instance of birth, as at death. The wants of the subordinate organization are circumscribed, their desires few. They look upon the wonders of creation, the handy work of God, and see and perish. There is no intercourse between spiritual and material existence; no lofty thoughts, no inspiration. There is mere existence. Not so with man, feeble longer than any of the irrational creation, he attains maturity thereby, but there are wrapt within him powers high and capacious, and adapted if improved to his highest destiny.

His soul through its material appendages, looks out upon created matter in all its diversified forms, and through intercourse its powers are taught and disciplined. To the mere animal, matter in all its diversified forms is nothing; to man it is everything, without it reason would not be, for date would not exist. Memory, there would be none, for there would be nothing to remember, imagination none, for there would be no reality. It is the mysterious intercourse between mind and matter, and the equally mysterious actions of the moral and intellectual faculties, that constitute the great supremacy of man, that point to the origin of his nature, and declare that "Thou O! God, hast made him a little lower than the angels, and hast crowned him with glory and honor." From the deep influence of education over man individually, and collectively, it has been in all ages a matter of National consideration. The Greeks, the Romans, the Persians, had each their system, and so long as it remained sound and vigorous, they exhibited in their existence all that was great and excellent.

If we refer to time-honored Greece, and fallen Rome, and view their crownless hills, and the dreary desolation in which they sit, we shall see what education can do, when properly or improperly directed.

1st. Education has more influence over mankind than money, because it expands the mind, refines the taste, and opens innumerable sources of intellectual enjoyments. By means of it we become less dependent on the sensual appetites, the gross pleasure of sense, are more easily dispensed with, and we are made to feel the superiority of the spiritual, over the material part of our nature. Instead of being continually under the influence of irritating and sensible objects the mind can retire within the penetralia of her own sacred dominions, and range at large in the calm, cool, and quiet walks of her own enlightened contemplation. The Author of our nature has annexed a pleasure to the exercise of our mental powers and faculties, in the pursuit of knowledge, of truth, and of virtue, which if less intense is at least more durable than the gratification of sense, and consequently more valuable. Let the mind retain her proper sphere, give to her control, over her own functions by an enlightened and timely education, and pleasure will germinate and burst forth spontaneously, unsolicited, unborrowed, and un-

bought. Education gives us an insight into the latent things of nature, refines our tastes, gives us more exalted views, and makes us fit ornaments for society, and by it we are enabled to keep pace with the progressive spirit of the age.

In the second place, education has more influence over mankind than money, because, it is a mighty instrument in developing our moral and physical nature. Morality is a matter of principles. Go to that class of people who have not enjoyed the influence of an education, and what has been, and what is now the moral condition of that class of people. A very natural consequence is, that they are destitute of those moral principles, that so highly elevate, and characterize any people. But view mankind where the genial rays and influences of education have been fully realized, and the contrast is too great for the comparison to be made. One class the scene of degradation and woe, the other, the scene of prosperity, happiness and success. Let us look for a moment at the effect of education on the physical nature. The organization of man is extensively modified by circumstances, by which he is surrounded, food, climate, habits, association, and exercise, both of body and mind, almost transforms him into a different animal. I healthy and properly regulated, they elevate him, but if otherwise, they sink him in the scale of life.

The wandering Carib, who lives in indolence, both of mind and body, amidst the filth of his domestics, and the food of the monkey, is but little superior to it, either in intellectual or bodily development. He is moved by no feelings except such as are purely animal. His will is governed by his intellect, and consequently, all his efforts are directed toward self-preservation, and the protection of his offspring. Contrast the frozen Laplander, the half-starved Esquimaux, with the stately European, the difference is wonderfully striking. The one appears to be little above the inferior animal, while the other approximates our views of a Supreme Being. Nothing but education and mental discipline, can secure that alteration to the organs of thought and reflection, which is necessary to rescue the above referred to, from the degradation in which he is placed.

Thirdly and lastly, Education has more influence over mankind than money, because it is productive of more good, I need not make reference to Greece, (the mother of Arts and Sciences), to show what education has done, and to the present advancement of the age, to show what it is doing. That which is productive of the most good, and benefits most, is that which always has the greater influence. Money will not make education and learning, but education and learning will make money. Human nature longs for and craves that which will secure the most happiness, and what is more calculated to secure happiness, refinement and prosperity, than a sanctified education.

If the foregoing remarks be true, who can define the benefits or anticipate the limits of education? Where will its genial influence terminate? What new discoveries may it not enable an improved organization to make? If the system should be rendered so complete, that the intellectual, moral and physical organs should be well balanced, and rendered equally perfect, while the whole is pushed forward with care and speed, where will the human mind be within the compass of a few centuries hence? I answer, in the midst of a glorious and universal millennium. The primitive nature of man will be restored, and he will be able to contemplate the beauties and glories of nature's God, from an elevation in the intellectual and moral world, of which we have no conception.

Respectfully,

J. N. BARBEE.

Cynthiana, June 20th, 1870.

THE LIVING MACHINE.

Injure the main spring of a watch and every portion of the works becomes disordered. The human stomach is to the human system what that elastic piece of metal is to a chronometer. It influences the action of the other organs, and controls, to a certain extent, the whole living machine. The comparison may be carried further; for as the weakness or other imperfections of the main spring is indicated on the face of the time piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded, the eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell us plainly as written words could do, that the great nourishing organ whose office it is to minister to the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Jostetter's Stomach Bitters may be truly said to be the one thing needed. The broken main spring of a watch may be repaired by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for fifteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopoeia have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

Koskoo.
This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for IMPURITY OF THE BLOOD, LIVER DISEASE, &c.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, City of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day.

Black Jewelry.
Chas. Rieckel, has just received the largest assortment of Black Jewelry ever offered in this market, all of which he will sell at the very lowest prices. Call and see for your self.

A Fire at Berryville.
On Tuesday last, the residence of J. D. Dudley, was entirely destroyed by fire. Loss \$800. No insurance.

A Saw Mill Burned.

On last Tuesday night, June 21st, the extensive Saw Mill belonging to Powell & Kearns, situated between Colemanville and Stringtown, near the Harrison line, was entirely destroyed by fire. Loss about \$3,000. This firm will fill all their contracts for lumber, as they intend rebuilding forthwith.

Big Calves.

Our enterprising fellow-citizen M. J. Rankin, purchased from J. W. Henry, of this county, 2 cattle which weighed together 4,775 pounds. He paid 7 cents per pound.

Whisky.

J. A. Wolford, shipped 200 barrels of "A. Kellar" Bourbon Whisky to G. A. Fellows & Co., New York.

High Price Land.

S. N. Drake, Whisky Merchant of New York City, bought the J. W. Kerney place, containing 303 acres, 1/2 mile from Lexington, last week, for which he paid \$204 29 per acre.

Indian Creek Bridge.

Green Remington, the Contractor for this Bridge, has finished it in an extraordinary short time. We understand that it was ready for use yesterday. Just 22 days have passed since the job was commenced. The names of the hands at work were, J. H. Miller, C. Rankin, R. Rankin, Joe Beckett, D. Bradshaw and James Florence.

Personal.

Col. Thos. Steel, of New York City, was in Cynthiana, last week.

Col. Geo. K. Dills, of Arkansas, was in Cynthiana, yesterday. He says he is not well.

Col. Charles Hanson, and Col. Add Thompson, of Paris, were in attendance upon the religious discussion.

Postal.

All Postage and Box Rent are now due at the Post office. If not paid before July 1st, the boxes will be promptly discontinued, and unpaid mail matter held for Postage.

Bargains.

Call at C. Rieckel's Jewelry Store on Pike street, for bargains, he will sell you Jewelry lower than you can get them at any other establishment in the country.

Sun Stroke.

On last Monday, Mr. Harry Williams, a Stone Mason, and by the way a good mechanic, was so effected by the heat of the Sun that he was compelled to suspend work for that day. Mr. W. has come among us to find a home, and we recommend him to those who have work to do, as a gentleman, and a good workman.

Court Day at Georgetown.

A. W. Lydick, Auctioneer, says: There was about four hundred head of cattle of all grades on the market at Georgetown, last Monday, with a small decline. Best 2 year olds selling from \$6 to 7 cents, inferior from 5 to 6; some rough cattle not sold; 200 head of mules offered, some fair 2 year olds selling from \$130 to 150, yearlings from \$80 to \$100. Good many common horses sold at low prices. Good horses were in demand at good prices. The day hot, crowd small, bidding slow. Wheat harvest kept many away.

Long Blue Grass.
Our old friend Dr. Taylor, who resides near Kenton town, in Robertson county, sent us some Blue-Grass stalks which measure 5 feet 5 inches high—and some clover, 4 feet 7 inches high.

A Religious Discussion.

Last Tuesday, strangers from up and down the Railroad stopped off the train at this city, in unusual numbers, all of whom, ladies and gentlemen were well dressed and good looking. Our city is usually full of strangers, and no excitement is exhibited by our citizens when a new face presents itself on our streets. The occasion for the large number of Divines visiting the "city of the Maidens" is the fact that Elder Wilkes, of the Christian Church, of Lexington, Ky., and Rev. Mr. Ditzler, of the Methodist Church of Louisville, are discussing Biblical questions of Baptism by Immersion, or by Sprinkling, and the Baptism of Infants.

A large crowd is in attendance.—The ladies of Cynthiana are furnishing excellent dinners for their friends. Our town ladies cannot be beat for good looks and good dinners. God bless them.

The discussion is progressing splendidly, in a proper style. The debaters deport themselves gentlemanly toward each other, and exhibit a spirit of friendliness commensurate with the christian character which each have borne.

Mr. Wilkes is a stern matter of fact kind of man, and when he makes a lick at his opponent, does it in a sledge hammer style. As a matter of course, all men of his temperament learn well all they do learn, and use language as emphatic as themselves. He is well educated and has a sufficient knowledge of this life to understand it practically. He is a married man, and has several children.

Mr. Ditzler, is a man of much polish and speaks fluently. He has full command of himself—and is one of the best tempered men we ever saw. Patience is a virtue as well as an endowment, and we believe that he has plenty of it. He gains the sympathy of his audience. He is an accomplished and talented gentleman. He is a bachelor.

The following Ministers of the Christian and Methodist Churches are present.

Elders Thos. Murnel, of Cincinnati; P. B. Wiles, Covington; J. J. Rogers, North Middletown; J. B. Briney, of Millersburg; J. Wesley McGarvey, Lexington; Noah R. Dale, Jefferson county; Albert Miles, Mt. Sterling; D. Webster Case, Cynthiana; Lancelot B. Wilks, Lexington; Jno. A. Gano, Bourbon county; Gen. R. M. Gano, Bourbon county; Giltner, Eminence; J. C. Arnsperg; T. G. Bates, Australia; J. Grove, Fleming county; J. H. Hughes, M. Wells, Jno Simpson, H. Oldham, J. Z. Tyler, H. B. Tyler, R. R. Neal.

Reverends J. Eitzler, of Louisville, M. Evans, Danville; R. Hiner, Millersburg; L. Boyle, Stanford; J. Letton, Lancaster; D. Robertson, Williamstown; H. Abbott, Millersburg; H. Kavanaugh, Leesburg; R. Lancaster, H. P. Walker, J. Rand. Mr. S. M. Duncan, of Nicholasville is among our visitors.

Ring's Vegetable Ambrosia.

Dandruff, so annoying from its unsightly appearance on the clothing, and from the itching and burning of the scalp, is detached cuticle, or outside layer of the skin. It is thrown off by the presence of humors. Ring's Vegetable Ambrosia is compounded in part to eradicate this humor from the scalp, and it does it most effectually in every case, leaving the head cool and clean and the clothing as it came from the taylor's.

For sale at Renaker's Drug Store, Cynthiana, Ky.

Health.

There is nothing more valuable than health; without it the wealth of a Cressus can afford no enjoyment, and life, instead of a blessing, becomes a burden. Hoodland's German Bitters, to those afflicted with any disease of the stomach or digestive organs, will prove more valuable than a mine of gold. For sale by druggists. They are not alcoholic.

DIED.

Mr. William Rankin, brother to Rev. Thomas Rankin, died at his residence, about two miles east of Williamstown, on Thursday, the 24th instant. He was perhaps about 70 years of age; he had been in feeble health for several years, was regarded a quiet, peaceable, good man, and was a local preacher of the Methodist Episcopal Church, South, before the last division. "The year rolls round and steals away The breath that first gave; Went 'er we do, while'er we be, We're traveling to the grave."

MARRIED.
On the 4th inst., at the Broadway Hotel, Cincinnati, Ohio, by the Rev. Wm. Allen Finke, Mr. R. F. Miller, to Miss E. Miller, all of Harrison county.

With the above notice came a gift, in the shape of greenbacks, for which the bride and groom will accept our thanks. May life move sweetly with them, and may they have plenty.

The undersigned has the pleasure of announcing, that on Thursday, at 8 o'clock P. M., June 9th, 1870, he solemnized the rite of matrimony between Mr. P. J. Zinn, an exemplary gentleman and model merchant of Williamstown, to Miss Mary E. Dills, daughter of the late Samuel Dills, of Harrison county, at the residence of the bride's mother, Mrs. Quintilla Dills, of the vicinity of Williamstown, Ky.

Attendants—Mr. Alfred Bickers and Miss Lou Lewis, of Dry Ridge. In consideration of the high regard I have for the married couple, I wish to be permitted to sing "another song."

Man is secure,
With woman pure,
In Heaven's commanded Union;
And holy Marriage!

Who dare disparage
Its true and pure communion?
"Communion!" sweet and sacred word—
Its definition who has heard?

It speaks of bliss—the bliss of love
That vitalizes Heaven above;
The magnet of two hearts
That speaks not, but imparts

Reciprocal, celestial essence,
Too pure for earthly effervescence;
Yet far above calm acquiescence—
'Tis genial hearts' pure coalescence—
A communion in spoken
In Union unbroken—
Filling,
Thrilling

The soul of Husband—soul of Wife—
It blends two hearts in one, through life.

THE SUMMER SEASON.

The Summer months are here, and as usual bring a long train of diseases—many dangerous and fatal. It is the season when nature can do little in recuperating our exhausted strength, and when we are required to fortify our physique against the dangers arising from the universal prevalence of sickness. The only true safeguard is that pure and reliable medicine and invigorator, MISHLEK'S HERB BITTERS, which is endorsed and recommended by the medical faculty and unnumbered thousands of persons in every city, town and village in the country, who have tested its remedial virtues, and by its aid "reserved or recovered their health. It will purify the blood and Secretions; cure every form of Indigestion, and afford immediate relief in cases of Dysentery, Cholera Morbus, and kindred diseases. Provide yourself now against a time of need. Delays are often dangerous. Price one dollar per bottle. Sold by all Druggists.

HELMBOLD'S FLUID EXTRACT BUCHU
is the great specific for Universal Lassitude,
Prostration, &c.
The constitution, once affected with Or-
ganic Weakness, requires the aid of Medi-
cine to strengthen and invigorate the sys-
tem, which HELMBOLD'S EXTRACT
BUCHU invariably does. If no treatment is
submitted to, Consumption or Insanity
ensues.

HELMBOLD'S FLUID EXTRACT BUCHU
and Improved Rose Wash
Will radically exterminate from the system
diseases arising from habits of dissipation,
at little expense, little or no change in diet,
no inconvenience or exposure; completely
superceding those unpleasant and danger-
ous remedies, Copalva and Mercury, in all
these diseases.

USE HELMBOLD'S FLUID EXTRACT BUCHU
In all diseases of these organs, whether
existing in male or female, from whatever
cause originating and no matter of how
long standing. It is pleasant in taste and
odor, "immediate" in action, and more
strengthening than any of the preparations
of Bark or Iron.

SOLE AGENTS
FOR THE UNITED STATES.
FOR SALE AT WHOLESALE AND RETAIL BY
T. J. MEGIBBEN & CO.,
CYNTHIANA, KY.
June 9, 1870-3mos.

TO PHYSICIANS.

New York, August 16th, 1868.
Allow me to call your attention to my
Preparation of Compound
Extract Buchu.

The component parts are BUCHU,
LONG LEAF, CUBEBS, JANI-
PER BERRIES.

More Preparation.—Buchu, in vacuo,
Juniper Berries, by distillation, to form a
fine gin. Cubebs-extracted by displacement
with spirits obtained from Juniper Ber-
ries; very little sugar is used, and a small
proportion of spirit. It is more palatable
than any now in use.

Buchu, as prepared by Druggists, is of a
dark color. It is a plant that emits its fra-
grance; the action of a flame destroys the
its active principle, leaving a dark and
glutinous residue. Mine is the color of
ingredients. The Buchu in my preparation
is the smallest quantity of the
other ingredients are added, to prevent fer-
mentation; upon inspection, it will be
found not to be a Tincture, as made in Phar-
macopoeia, nor is it a Syrup—and therefore
can be used in cases where fever or inflamma-
tion exist. In this, you have the knowledge
of the ingredients and the mode of prepara-
tion.

Hope that you will favor it with a trial,
and that upon inspection it will meet with
your approval.

dent of the Faculty of the E. Medical
College of the City of New York.
PROFESSOR R. S. NEWTON, M. D.,
Professor and President of the Faculty, late
"Professor Theory and Practice of
Medicine, Cincinnati, &c."

One of the most eminent medical men of
this age—well known as the author of the
following extensive medical works: "NEW-
TON'S 'PRACTICE OF MEDICINE,' 'DISEASES
OF CHILDREN,' 'NEWTON'S SYLVE'S
SURGERY,' &c. In December number of
American Medical Review, page 278, says:
"Among the most recent efforts to intro-
duce popularly, some of the new remedies,
we notice a new preparation compounded by
J. J. LAWRENCE, M. D. of Norfolk, Va.,
which is furnished in the profession, and
the public in any desired quantity. We
recently examined his Laboratory, and be-
came fully satisfied that all his work is
done in the best manner, by the most ap-
proved processes, and from the best materi-
als, giving as a result a medicine WORTH
THE CONFIDENCE OF THE PHYSICIANS AND THE
PUBLIC."

**Koskoo Cures Scurfula in Its
Worst Form.**
From A. W. MILLS, a prominent and well
known Merchant of Norfolk, Va.
No. 11 Main Street, Norfolk, Va.
Dr. LAWRENCE—Dear Sir:—Your Koskoo
has worked wonders in my family. My
daughter has been a sufferer from Scurfula
since childhood. She lost thirty-one pieces
of bone from her ankle several from her
arm, besides having ulcers. In several parts
of the body. While in this condition, she
commenced taking your Koskoo—it acted
like a charm on her; under its use the ulcers
gradually healed, and her general
health greatly improved. Eventually she
regained a specific for all her Scurfula
affections. Your Koskoo also cured my wife
of dyspepsia, from which she suffered
greatly. She is now in better health than
she has been in five years.

With the highest regards, I am gratefully
yours, &c.
A. W. MILLS.

Koskoo is endorsed by the best physicians
everywhere. Read the following from Dr.
Tillery, a successful practitioner of many
years standing in the Old North State:
Rocky Mount, Edgecombe Co., Va.
September 19, 1869.

J. J. LAWRENCE—Dear Sir:—I have used
your Concentrated Fluid Extract of Koskoo
in my practice with the happiest results. I
find it to be a powerful Liver Invigorator,
Blood Purifier, and Nervous Tonic. In all
diseases of the Liver Scurfula, Syphilis,
and Nervous Affections, it is a remedy of
immense value. In fact, in almost every
variety of Chronic Disease, its use is indi-
cated. Hoping you may meet with the
success which you deserve as a manufac-
turer of reliable medicines, I am, sir, with
much respect, Your obedient servant,
R. C. TILLEY, M. D.

**Koskoo Cures Chronic Rheuma-
tism.**
NORFOLK, VA., Sept 7, 1869.
Dr. J. J. LAWRENCE—Dear Sir:—My son
has received so much benefit from your
wonderful Koskoo that I cannot refrain
from expressing my gratitude. I had tried
almost everything without benefit. I be-
lieve in all sincerity that your Koskoo is
an INFALLIBLE remedy for the disease from
which he has suffered, and so far as I can
learn, has never failed. If you only knew
the source and amount of suffering that he
has undergone, then you could conceive the
value of such a remedy as Koskoo—THAT
SURELY CURES. The great amount of good
it has done among us is incalculable.
With much gratitude, I am, respectfully
yours, &c.
MRS. M. E. A. NELSON.

Read the following from Mr. Womble, a
prominent Hardware Merchant of this
city:
No. 13 Market Square, Norfolk, Va.)
October 13, 1869.)
Dr. LAWRENCE—Dear Sir:—To the large
number of testimonials which you offer of
the great efficacy of your Koskoo, I take
pleasure in adding my own. I suffered
greatly with Nervous Debility, Headache,
Loss of Appetite, &c. Two bottles of Kos-
koo restored me to health. Yours truly,
J. G. WOMBLE.

From Rev. W. H. Christian, Pastor Dun-
widdie Street Methodist Church.
Portsmouth, Va., October 25, 1869.
This is the certifi that I know Dr. Law-
rence well. He is a gentleman of educa-
tion and worthy of the fullest confidence.
I have used his Koskoo with advantage to
myself, and have adopted its use in my
family in cases of nervous debility and
depression.
W. H. CHRISTIAN.

After reading the above high recom-
mendation, Invalids cannot reasonably hesi-
tate to give KOSKOO a trial.
